Work History

2021-10 -
Current

UX/UI Designer

Jackson Hewitt, Gulf Breeze, United States

- Lead UX/UI designer for Jackson Hewitt's Tax Resolution Division
- Worked hand-in-hand with product owner and business liaison to translate business objectives and workflows into project feature requirements and polished user interfaces.
- Defined user experience of the JH Tax Resolution web application and provided workflow mockups, interactive prototypes and high-fidelity graphics.
- Created user personas for all roles and conducted user interviews at each step of the way in order to gain empathy and a deep understanding of our users.
- Conducted user testing in order to confirm or refute all design assumptions.
- Created living style guide for the Tax Resolution application and all extraneous web solutions.
- Integrated finalized design into the Tax Resolution web application via SCSS.

2010-09 -
2021-10

UX Designer

Kemper Corporation, Previously Infinity Insurance, Birmingham, AL

- Lead UX designer for Infinity Insurance
- Promoted and ensured consistent look, feel and experience across multiple Kemper/Infinity domains and platforms.
- Defined user experience concepts and provided

design layouts, workflows, prototypes and high-fidelity graphics.

- Created and maintained libraries of reusable web components.
- Closely collaborated with cross-functional teams and business units to turn requirements into completed apps, within project deadlines, and to identify and quickly address problems.
- Developed and facilitated UX workshops, to help promote optimum user experience across the organization, with 95% positive feedback from attendees.

2003-10 -
2010-09

Lead Web Developer
